

10 YEAR PANEL WARRANTY

SRC Refrigeration expressly warrants to the original Purchaser/User at the original installation site, the structural panels manufactured in our factory are free of defect in material and/or workmanship for a period of ten years from date of shipment under normal use and service.

Mechanical components, such as cam-locks, gasketing, hardware, door panels, floor panels and electrical components are warranted for a period of one year from the date of shipment.

Panel surface finishes are warranted to be free from defects for a period of one year from the date of shipment and only when they are stored or used in accordance with recommendations.

This warranty does not cover defects caused, in whole or in part, by improper installation, abnormal environmental conditions, abuse, misuse, accident, alterations, improper maintenance, freight damage, storm damage or any acts of God or any other event not under the control of SRC Refrigeration. In addition, equipment which has been subject to removal from the original installation site, disassembled and rebuilt in another location voids the warranty.

We retain the right to inspect and qualify any claim for warranty coverage, and are the final determiner as to whether or not the failure is due to actual material defects in manufacture. If warranty coverage is authorized, replacement panels will be provided at no charge, F.O.B. factory.

Exclusions to our Warranty

- n Shipping/Delivery cost for new panels
- n Labor; costs associated with the disconnect, removal and reconnect of panels, refrigeration system(s) and electrical

Additional Notes:

No compensation will be provided for removal and the re-installation of any structural walls or accessories attached to the SRC walk-in. Please refer to the SRC Terms & Conditions for a complete explanation of any specific issues.
